

# About The Company

- ▶ Akademi Textile is an innovative knitwear manufacturer. We are based in central Istanbul, Turkey. We have been providing services and exporting to European market since 1997.
- ▶ Akademi is one of the world's leading textile companies.
- ▶ We design and manufacture products for leading international brands.
- ▶ Our innovative products and creative & dynamic team of optimistic & determined professionals have created extraordinary opportunities and competitive advantages for our clients and partners.

# Mission and Vision

Our vision is to provide the highest level of satisfaction to our clients and partners. In order to achieve this, we provide fast manufacturing, on time delivery, highly reasonable prices, and the best quality.

As a result of our great success in the past years in the European markets, our employees are highly motivated to put our company in the center of European fashion.

## Values and Ethics

### ▶ Leadership

Our company has made a great business and financial growth which emerges it the forefront of the textile world. This is due to the top-level training that we provide to our staff. This also helps to improve all elements of our business, particularly the way we make and support our products.

### ▶ Integrity

We practice a steadfast adherence to the highest ethical standards, honoring each and every one of the commitments we make to our highly respected clients. We always operate strictly according to values of trust and respect.

### ▶ Reliability

Quality, integrity, and client satisfaction are the most important things for us, and also are essential to our success. We aim to provide the highest level of satisfaction to our customers, operating within a culture of efficiency and teamwork to achieve our target production capacity within specific time frame.

### ▶ Reputation

We strive for the highest level of service to our customers. This is done through our systematic process of monitoring critical performance of indicators, and implementing specific strategies to improve the processes, safety, and outcome of all of the services we provide. These processes are to ensure continuous quality improvement in all that we do. As we strive to be among the world's premier industrial firms in customer base, employee and community satisfaction is important.

### ▶ Corporate Social Responsibility

Every successful corporation has a responsibility to use its resources and influence to make a positive impact on the world. In accordance with this, we focus on mobilizing our resources across the company and around the world, creating opportunities in the communities in which we do business. We continue to fulfill our commitment to serve the public good through innovative technologies and partnerships.
